Alfina
What have you been up to up until now

When it was a game, summoned beings used to say the bare minimum to respond to orders...

I mainly trained together with my sisters so that we are ready to be summoned by you at a moment's notice whenever you have need for us

Mhm..
I see
Well done

But the highly intelligent summoned beings can speak.....

Up until now I had only summoned weapon spirits like Dark Knight and Holy knight..

With the game becoming reality summoned beings are now capable of training of their own accord, and talk about it....

I's an honor to be complimented by you

This will be fun

With this, I won't be lonely even if I act alone

She was dazzlingly beautiful wasn't she?

But her beauty isn't the only thing incredible about her

Hey Mira Is that person part of your summoning skils?

スタスタスタ

Mhm

ニヨまー

Mira looks very happy...

どやっ

Hehe... Do you understand the strength of summoners now? do you ?

Her fighting spirit is .....

Far superior to the armored knight from earlier

I can feel the impact from her battle all the way here

Indeed summoning is incredible

It's my first time seeing it,and it left me astonished

Hehe... Do you understand now? Do you?

ペラペラ

While it's important to continue specialized research on all of the arts

Just by increasing the variation of summoned beings you would have various types of power at your disposal

While it's true that this summoning skill might have a steep learning curve its power and usefulness are undeniable

ペラペラ

Even though the art that holds so much power is almost lost, I think there is a need and enough merit to warrant restarting research on the art of summoning

Her personality suddenly changed She became strangely intelligent

Ah... So that's what this is about..

hm? What's wrong?

ペラ・ペ～ラ

Emella! Emella!

Something is wrong with with Flicker!!!

Hi!

I got rejected~

What is it Emella? stop joking around

So what's going on?

I love you

Do it and you will understand

What's up! What are you doing Emella!!!!!!!!

Try doing what I just did

Huh?!

Oh my... Mira....
ぐいっ

I also love you a lot Mira!

Here I'll give you a hug!

Can't be helped!

Ahhhhh hhhhhh hhhhhhh hhhhhhhhh hhhhhhhh hhhhhhhhh hhhhhhhhhhh!!!!

Flicker is usually a calm and composed ally that we can depend on

But she has a weak spot for cute little girls

What's the meaning of this!!!!!

I thought seeing it for yourself would be faster

You FOOL!!!!!

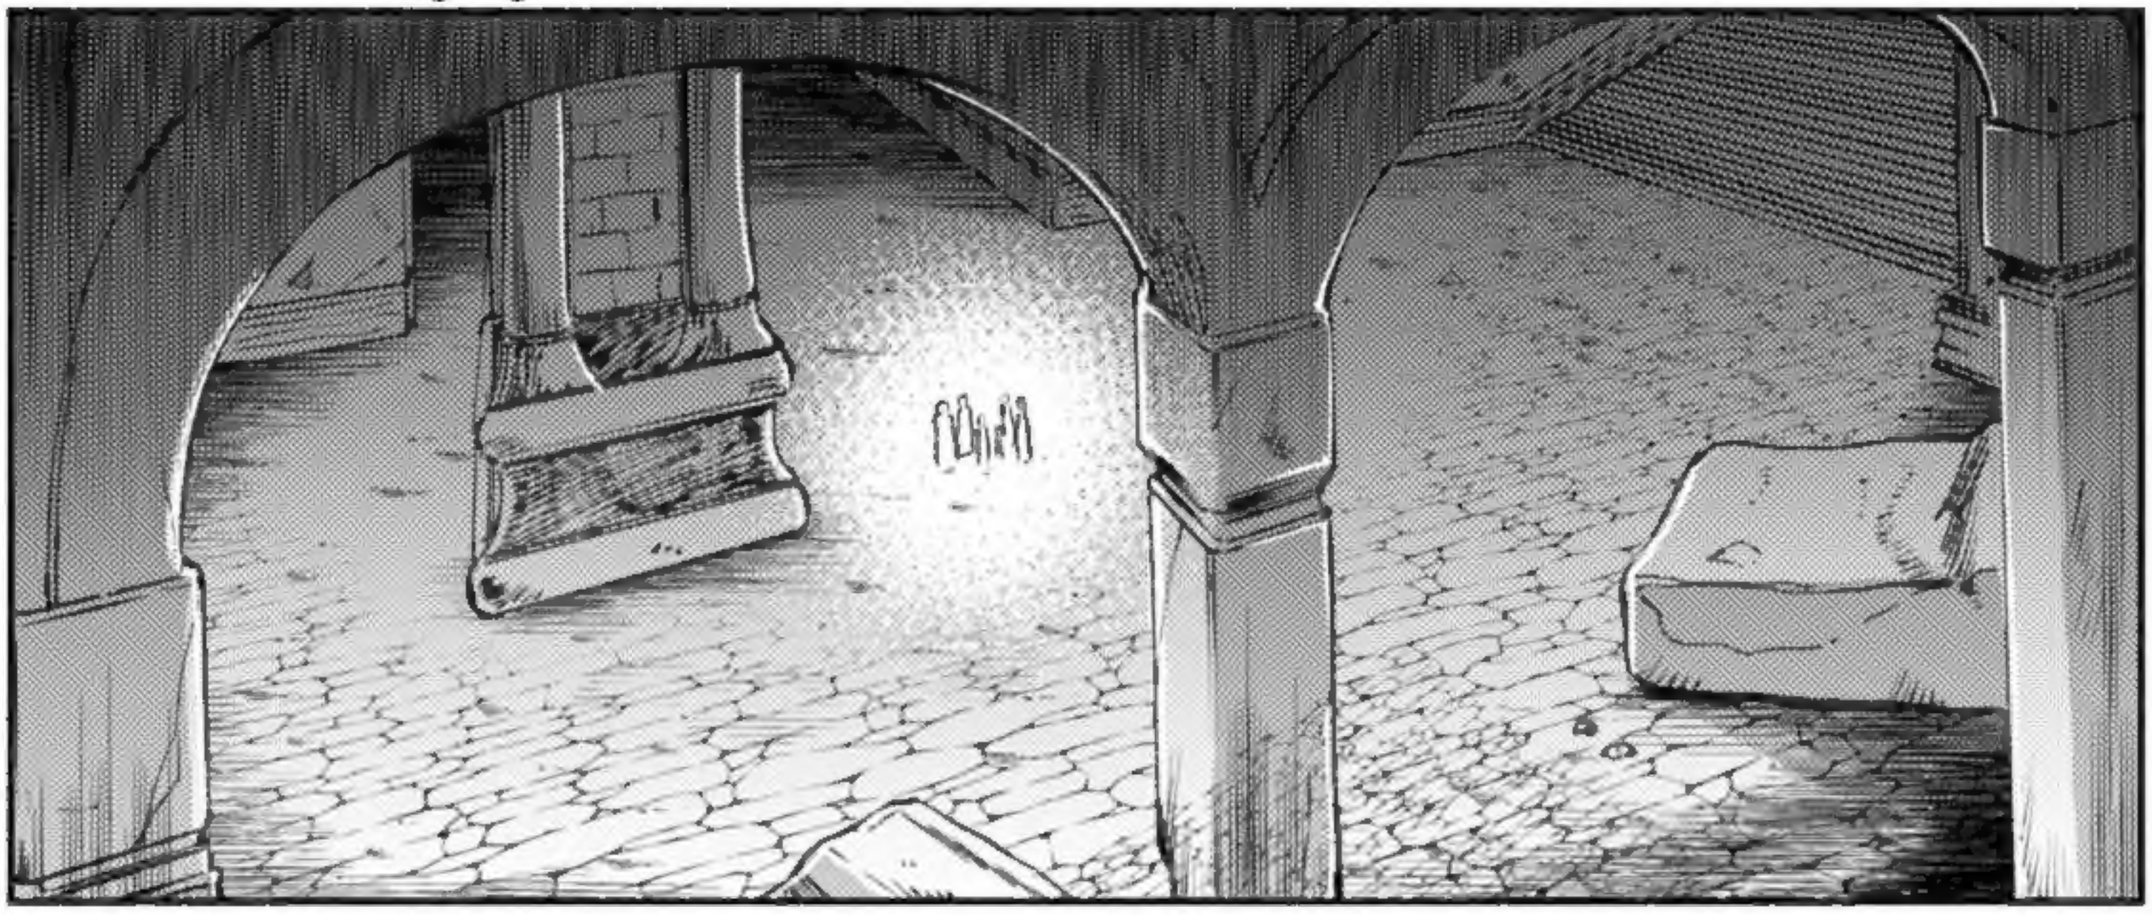
はははは

Tl: Laughing out loud

You could have just told me that!!!!!!

When she sees a cute girl like you her switch is flipped and this happens

Tl: snickering



Impressive
She really cleared
the whole area

Hmm

Probably

These piles
of ahses....
Are they all
that remains
of the
monsters?

Mhm...
Looks like the items that used to drop when this was a game still drop now

Oh!
I found a magic stone from within the ashes

Magic stones are materails mainly dropped from undead monsters. They hold the magical power that moves the corpses, and have many uses. Since they are in high demand players used to overfarm them. Players used to refer to this act of overfarming as "Grave visiting"

Grave visitng...
So nostalgic

Whaaa!
There are 14 of them!
So great!

Can you really burn monsters to the point that they turn to ash like this just by using a sword ?

But....
Wasn't miss... Alfina?
Using a sword?

I'll leave the explaination to you

Then....

However there is no trace of magic being used here

True..... Even mages can't do this much unless they use a high level spell

Alfina's sword , The Destroyer of Evil was forged using condensed light

Whenever it strikes anything evil it fires a flash that incinerates the target

Can't be helped

Incredible....

So a weapon like that exists.....

Mhm.. The true strength of summoning comes from combining weapons with summoned beings

Since every monster in here is undead, nothing can stand in Alfina's path

jeez Flicker..... And you have no talent when it comes to little cute girls!

Emella has no talent when it comes to distinguishing the quality of swords

Incredbile!!!!

もーほどほどにしてよね

I can't help but think of these piles as treasure chests

Even this passage is filled with piles of ashes

tl: Sigh..... do it in moderation

Uh.....
Don't say that. I just didn't want a small child wandering in a C Rank dungeon without protection

What did we even come here for? Ooo magic stones nice!

To think that a C Rank dungeon exploration would turn into a stroll...

Wha.! A magic crystal?!!

Quite lucky...

Wow! seriously!

Ohhh!!!! I found a magic crystal!

Even though rare drop is a good thing, I don't feel happy about this at all.....!

Frankly , we are just leeching at this point... But this is too good!!!

Finishing fast and going back home is a good thing

Heh..

It's alright

You can rest now

It's an honor to be praised by you

Mhm.... Well Done As expected

I Have completed my task

ﾅﾝ…ｻﾞ

Nebrapolis
Fifth floor

This must be the mirror of Anjo....

All you need to do is think of the ones you want to meet and call their name

ぽんっ

Go ahead

Okay..!

Ashuri!
Lene!

Huh...

Did they already appear?

Is it only visible to the person who activates it ?

No, my parents are still alive

Do you know anyone who lost their life?

Because they are elves

No, it's supposed to require a key item when you're trying to call a person unrelated to you, but when it's people related to you calling them should be enough

My parents take good care of themselves so they can continue to teach small children

When you're the one saying it, I can't help but think that there is a hidden meaning

Mine wouldn't die even if you tried to kill them

The same as you

Still if there no answer, maybe the mirror is broken
